# 5C - Common report - M Grove

#### **Environmental Stewardship**

- The extension for the Environmental Stewardship to 2028has been applied for. We are waiting for an
  extension from Natural England to the SSSI to 2028 which the Rural Payments Agency (RPA) need to
  accompany the agreement. Mandy has sent the agreement to RPA on 24<sup>th</sup> Nov whether this doc has been
  received or not. We await the decision of RPA
- 2. Educational Access. I have stated that I cannot commit to running this to 2028. Parish council have decoded to run with it as is and bank on finding someone to take over when I stop or risk having to pay back grants received

Total raised by Ed Access since inception 2010

£15,728

Two bookings have already been received for 2023.

7 visits have been made this year.

# Fishing rights agreement with Church commissioners.

A new legal document is being drafted by the Parish Council for the Church Commissioners who own the Fishing Rights A final draft has been agreed. The tenancy is to be let to Freelands Wherwell MG and DG are very clear that there should be no right of vehicular access enshrined in the agreement but permissions must be sought on each and every occasion, specifying timings and route.

Tom Skipsey is the Freelands river keeper. He was busy working with WRT throughout the construction of the berms on the Purleygig stream and has been charged with cutting back the posts to river level. Decision – In a discussion with him he expressed a desire to attend one of the COSC meetings. Yes/No

#### **Wessex Rivers Trust river restoration**

WRT work has been completed early on the Purleygig leader. Volunteers were sourced by WRT, Sparsholt and 2 from the village. All is well and the work excellently carried out. The decision on the WRT information board has been forwarded to Amy Ellis. Many positive comments.

# **Gravel** area

George has started work on the gravel area redesign. The gate has been moved and posts put in to mark the reduced area where cars can park

#### Cattle

Adam Coutts grazier will be gathering in early November. The cows should be off by the date of the meeting.

### Scrub clearance

HCV have been booked for February to clear the scrub from the north boundary of the common where the blackthorn scrub has encroached on the line of the bridleway. We need to book Vesper's Rob West to do more.

We urgently need to take the fallen ash from the boundary fence by the main river. Decision - when?

# **Information boards**

DG has finalised the draft with Sue Larcombe. CPC has handled this throughout

#### **Autumn cut**

Vesper Conservation and Ecology LTD of Chilbolton Down Farm have completed the cuts

# **Common Management plan**

After a long silence on many current matters Natural England have requested a detailed Common management plan. MG is to try to finalise and present at the December COSC meeting but circumstances are working against this at the moment. This is in hand and may be needed to meet requirements of the Nature Recovery part of the proposed Environmental Land Management (ELM) proposal which are due in 2024. Unlikely as they are extending existing agreements to 2028

# 5G WMPF and Development Group report from N Horne – Playing Field

I await details from Jason Holmes about Shooters FC having use of our pitch for their youth teams. Once I have them, I shall advise COSC and make a formal proposal to the Parish Council. Wherwell Royals FC have confirmed they wish to use the pitch when their Wherwell Playing Field pitch is not available, and I will include that in my proposal.

No more grass cuts planned for 2022 but the area around the play equipment may need to be strimmed.

The Parish Council has decided to seek a professional survey of the playing field.

### **Equipment**

The zip wire trolley has been fully serviced and our thanks are due to Ed Treadwell and his son for undertaking that task. The zip wire is now back in action. We are prepared to do that which will involve an outlay equivalent to 25% of the cost quoted by the installers, Vitaplay.

Communications continue between with Spalding over the failed basketball ring bracket and the peeling coating on the posts. It seems the former is likely to be replaced under their warranty, but a decision is still awaited on the coating.

# **Development Group**

Following a series of meetings with the four play equipment companies we selected, a proposal and recommendation has been submitted to the Parish Council for their meeting on 5 December. We have recommended a three-tower adventure tower which facilitates the widest range of interest and features that we could include within the budget the DG has worked to.

As part of this project, the slide mound will be replaced, and a cycle bump track will be created. The CWMPF will therefore gain a greatly increased range of activities to suit a wider range of ages, and more of the longer-term plan for its improvement will have been completed.

If there is a decision to proceed it will be necessary to make the anticipated detailed application to TVBC for a Community Asset Fund grant; for which the deadline is 23 January. Also, a further request to TVBC to release S106 monies is anticipated.
